- New Apps

KitKat 4.4

Smart, simple, and truly yours
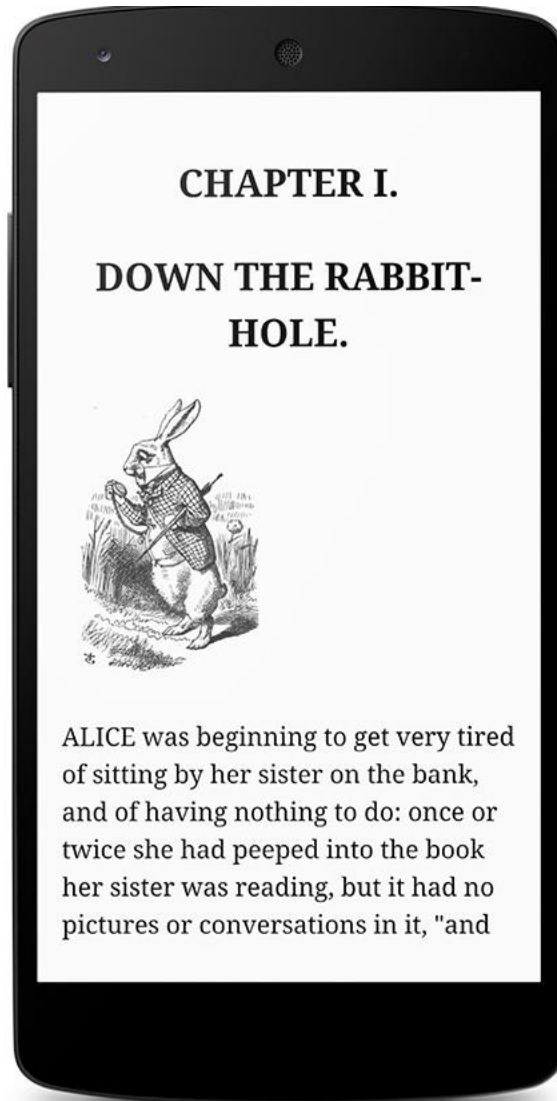

KitKat replaces Lollipop

Ease of USE

Just say "Ok Google"

You don't need to touch the screen to get things done. When on your home screen* or in Google Now, just say "Ok Google" to launch voice search, send a text, get directions or even play a song.

Large screen with readable print

CHAPTER I.

DOWN THE RABBIT-
HOLE.

ALICE was beginning to get very tired
of sitting by her sister on the bank,
and of having nothing to do: once or
twice she had peeped into the book
her sister was reading, but it had no
pictures or conversations in it, "and

Immerse yourself

The book you're reading, the game you're playing, or the movie
you're watching — now all of these take center stage with the new
immersive mode, which automatically hides everything except
what you really want to see. Just swipe the edge of the screen to
bring back your status bar and navigation buttons.

Larger memory allows Multitaking

Faster multitasking

Android 4.4 takes system performance to an all-time high by optimizing memory and improving your touchscreen so that it responds faster and more accurately than ever before. This means that you can listen to music while browsing the web, or race down the highway with the latest hit game, all without a hitch.

Print

Print wherever, whenever

Now you can print photos, documents, and web pages from your phone or tablet. You can print to any printer connected to Google Cloud Print, to HP ePrint printers, and to other printers that have apps in the Google Play Store.

Save photos, video, documents to your Cloud folder(s)

Pick a file, any file

From apps like Quickoffice, you can open and save files on Google Drive, other cloud storage services, or your device. And with quick access to recently used files, it's easier than ever to send the file you were just working on.

# Works well on any carrier
